The Species of Bramford 2014

This document lists the species recorded within the Bramford parish boundaries on the irecord website (http://www.brc.ac.uk/irecord/) between 1st October 2013 and 30th September 2014. This does not constitute a definitive list of species and is based predominantly on the species recording day which occurred on the Water Meadows site in early July.

In future years it is hoped that some trends and patterns can be derived for the flora and forna of the village; this work will continue to be coordinated by Bramford Open Spaces, however all records gratefully received, either through irecord, the Suffolk Biological Records Office website (http://www.suffolkbrc.org.uk/recording) or directly to Bramford Open Spaces (http://bramfordopenspaces.onesuffolk.net/tell-us).
